PURPOSE OF THE COURSE

Course Description:

Global Haiku Traditions examines the origins and spread of Japanese poetics from Japan around the world, with a special focus on the adaptation of haiku into other cultures and languages. This course explores the role of haiku as a social literary art—both the art of reading and art of writing haiku emphasize the importance of shared collaborative aesthetic experiences (shared acts of the imagination).

There is a very active global haiku community of writers, editors, scholars and associations celebrating participation in this literary art. A special feature of the course is that students will study leading international poets, editors and scholars of contemporary haiku. We will study the history of haiku and related poetics in Japan, and then examine the contemporary internalization of haiku in various cultures. Students complete both an analytical study of a contemporary haiku poet or issue in the haiku community as well as various creative projects connecting haiku to other arts. There are numerous web resources available for this course located at: <<http://www.brooksbookshaiku.com/MillikinHaiku/courses>>.

Course Learning Goals, Outcomes & Objectives:

Students will explore the history and practice Japanese haikai poetics and learn about the role of this literary art in both Japanese and contemporary American culture. Students will compare authors and approaches to haiku from both Japanese and American traditions. Students will develop their professional writing abilities, as academic research writers through a study of a contemporary haiku writer. The haikai arts emphasize the power of concise writing, in which silence and things not said may be as important as the things said. Therefore, study of the haikai arts helps students develop exact, precise writing skills. Also, since haiku is the art of suggestion and connotation, it requires an integration of reading and writing abilities.

Haikai arts stress the importance of an active reader to “finish” the haiku in their own mind. The active response to a haiku is to share your imagined response, or to create another haiku or extension of the original haiku. This process of connecting personal experiences, memories and feelings to the haiku by others helps students explore their own lives, memories, feelings and values. As students practice the art of reading and writing haiku, they discover that the haikai arts are not the exclusive domain of professional writers. They discover that haiku is a possible means of developing a personal life of meaning and value from their own reading responses and through the writing of their own original haiku.

University Studies Learning Goals:

This course also has been approved to fulfill the **Creative Arts** requirement for University Studies that students will:

1. investigate discipline-specific creative processes;
2. analyze the art using discipline-appropriate vocabulary; and
3. evaluate how art relates to an individual life of meaning and value.

Creative Arts Requirement Catalog Description:

In creative arts courses students will engage in and /or analyze a creative, intellectual, and aesthetic process within the visual, dramatic, literary, and/or performing arts and reflect on that process to increase their ability to understand themselves and others and to enhance their capacity to enjoy their own and others’ creative processes and products. Students develop an understanding of themselves and the ability to reflect on and express their thoughts and feelings responsibly. This non-sequential requirement can be met with any creative arts course that blends experiential, theoretical, and reflective approaches.

This course also has been approved to fulfill the **International Cultures and Structures** requirement for University Studies that students will be able to:

1. analyze culturally diverse points of view through examination of primary sources;
2. comprehend cultures and/or social structures of countries outside the United States; and
3. compare cultural and/or social structures found in countries outside the United States to those found in the US.

ICS Catalog Description:

This two-course requirement focuses on cultures and social structures outside the United States. It may be satisfied by courses in modern language, internationally focused courses from a variety of disciplines, study abroad courses, or a combination of these. Culture refers to learned systems of meanings, and their representations, that people use to interact with the world around them, including language, values, beliefs, norms, traditions, customs, history, art, and artifacts. Social structures refers to generally stable patterns of interactions, from the smallest units found in individual social relationships, through larger economic, political and social institutions in societies, to worldwide systems of relationships among nations. Each course must address culture and/or social structure.

English Department & College of Arts & Sciences Learning Goals:

This course also fulfills an international literature course for English majors, and a literary studies course for the distribution requirement in the College of Arts & Sciences.

Courses dropped during the appropriate period result in a W on the student transcript. Courses dropped after this period will result in the earned grade at the time of drop.

Students who leave the University during or at the end of the semester must report to the Registrar's Office to complete the necessary procedures and forms. Students who withdraw from the University may be eligible to receive a refund of charges assessed by the University in accordance with the refund schedules (undergraduate traditional, accelerated, or graduate) posted in the Academic Bulletin. Students may also be involuntarily withdrawn if they engage or threaten to engage in behavior which poses a danger of causing physical harm to self or others. The Involuntary Withdrawal Policy may be found in the Student Handbook.

Course Evaluations

Millikin University utilizes online course evaluations which are available beginning in the last week of each course term. Students may log into their MyMillikin portal to complete course evaluations. Evaluations are considered an important part of the teaching and students should feel comfortable giving thoughtful, honest feedback.
