

Dark Knight: A Solo Sequence
by Rene Sanchez, Millikin University
May 1, 2018

Dark Knight

Sunday morning
the sun shines
east in the sky

as evening strikes
crime rate increases
throughout the night

flashing lights
red and blue...
sirens roar

one right decision . . .
momentum shifts
they're safe and sound

Gotham wakes
from the night before
havoc everywhere

the dark knight rises
creating hope
angels watching through the night

the moon's shadow . . .
reflecting off the wall
calling for help

as the night continues
sooner than later
darkness will prevail

on the strike of dawn
miles away . . .
the sun rises again
